

# SNAPCHAT

## HOW TO KEEP YOUR CHILD SAFE

### WHAT IS SNAPCHAT?

#### A QUICK OVERVIEW

Snapchat is a social media app based on communicating with others more than sharing pictures. People can send 'snaps', or pictures, to others which can only be viewed twice by the recipient. Chats also disappear after being seen, but can be saved. People can also temporarily upload a picture to their 'story', which can be viewed by others.

### ACCOUNT PRIVACY

#### AUTOMATIC

All accounts are automatically private and if someone 'adds' you on snapchat, you can accept or ignore the request. You can also see how the person has added you (e.g. if they have searched for your account or if they have added you from being mentioned in someone else's story).

### BLOCKING PROFILES

**GO TO THEIR PROFILE > 3 DOTS IN THE CORNER > BLOCK**

Apart from blocking someone, you can unfriend them as well. The difference between these 2 is that blocking them will not allow someone to find your profile again, however unfriending them means that they can add you again.

### REPORTING CONTENT

#### STORIES AND TILES

To report a story: View someone's story > long press until the screen minimises > click on the flag symbol in the bottom left corner > Select reason

To report a tile: Long press on the tile until the profile appears > Report Tile > Select reason

The report will be sent to moderators which will review the story/tile. Snapchat moderators will decide if it violates guidelines.

### REPORTING PROFILES

**GO TO THEIR PROFILE > 3 DOTS IN THE CORNER > REPORT > SELECT REASON**

If the profile is found to contain illegal content, snapchat can decide to terminate the account or notify law enforcement. As chats cannot be reported, it is recommended to report the profile instead.
