

## LETTER TO YEAR 7'S

To future year 7's,

As a former member of the year, I can tell you that Year 7 is very different from primary school but I can also tell you that it is a lot better (especially the food!). Personally, I really enjoyed the year because it is mainly about making good friends and getting used to AGGS.

I have really enjoyed learning new topics, including: languages, citizenship and all of the different types of P.E. The science we have learnt this year has been so in depth and really interesting, incorporating many experiments and fun activities to do with your classmates. In Year 7, maths is not about learning new skills, however you review all of the topics you learnt in primary school so don't be afraid! My favourite part of the maths lessons is the game of countdown we play at the start against our teacher.

I came into this school last year, not knowing many people, but I have made some amazing friends who inspire me so much. I would say I know nearly three quarters of the Year 7 girls, this was mainly influenced by the fantastic residential to Glaramara.

I am a very sporty girl and I love playing competitive sport with my netball team. I would encourage others to try out for at least one sports club as it is a great way to stay active and interact with others from your year. You will meet a lot of people who have the same hobbies as you if you join a club, whether that is sport, art, science etc. I am also a sports ambassador for the school and I would recommend putting yourself forward to represent the school by organising fun runs or coming up with new sports clubs.

AGGS is a really inclusive school and I promise you will have fun and make so many new friends. I was a little nervous when I started because of the new teachers: I had nothing to fear as they are ALL so approachable and kind. They just want you to be the best you can be! My final note is: the food is AMAZING and don't even consider bringing a packed lunch. 😊

### 5 TIPS THAT YOU SHOULD KNOW

1. Stay organised
2. Try your best with everything.
3. WORK HARD!!!
4. Be kind and have fun- you will make lots of new friends.
5. Respect everyone.

You will love this school!

Bethan xx
